We are More than just a Website!

Best Places to Work in Western New York
500/5000 Company

Buffalo Niagara Business Ethics Award Nominee

VoIP Experts

Our experts have over **twenty** years of experience

PARTNER WITH US!

Wholesale Pricing & Financing

Take advantage of aggressive wholesale pricing and make use of our credit terms to ensure care-free order fulfillment.

Marketing & Education

Find the marketing materials you need to learn VoIP at your own pace, explain complex concepts to your customers, or compare VoIP products side by side within seconds! Feel free to share our materials with your customers!

Dedicated Sales & Support

We have over 15 customer-facing sales, support, and service associates to take care of your needs both before and after the sale. VoIP Supply prides itself in delivering world-class Customer Support to ensure your business has the best possible experience.

Full-Cycle Logistics

Eliminate the need & expense of warehousing by leveraging VoIP Supply's same-day blind shipping capabilities and professional RMA services.

By taking advantage of VoIP Supply's **custom portal** and **API**, you have real-time access to your projects fulfillment progress and delivery. With the ability to manage your business from any web-enabled device you will always ensure your project is on track, and expectations are being exceeded.

Utilizing VoIP Supply's Provisioning and Professional services allows you to take complete control in providing the perfect solution to your customer without the **time constraints**, and **financial burden** of completing these tasks in house.

Rental Program

We can confidently say that we have the best hardware rental program in the industry. Our Device as a Service (DaaS) rental program gives your customers the widest variety of VoIP Products for a low monthly payment!

Benefits:

- Fast & easy to apply - One-page application
- Approved within days
- Wide variety of VoIP products (phones, conference phones, PBX, and more)

If you are interested in joining the VoIP Supply DaaS Rental Program please email Don Stefanie dons@voipsupply.com and request the form!

<https://www.voipsupply.com/vs-rental-program>

VoIP Supply's Reclaim equipment buyback program is your outlet for **selling off your used and excess** VoIP equipment. With Reclaim you can submit your equipment for sale to VoIP Supply and **receive fair market value** for it allowing you to "reclaim" a portion of your original investment.

VoIP Supply's exclusive Refresh program will allow you to replace a customer's device with a **certified reconditioned device** at a **fraction of the cost** of a new device. With VoIP Supply's Refresh program, you can provide your customers the support and sense of security that comes with a Refresh product.

New from Algo: Cloud-Based Device Manager & IP Displays

& Music**

Device Management

Algo Device Management Solutions

EACH IP ENDPOINT Device Web Interface

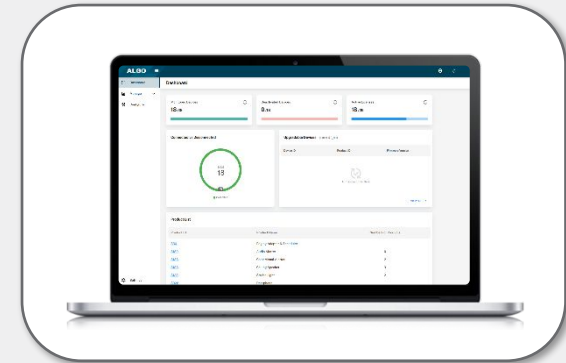

- Each device's web interface is accessible via the device IP address
- All configuration settings can be adjusted in the device, no additional software is required

DEDICATED DEVICE MANAGER 8300 – On Premise Solution

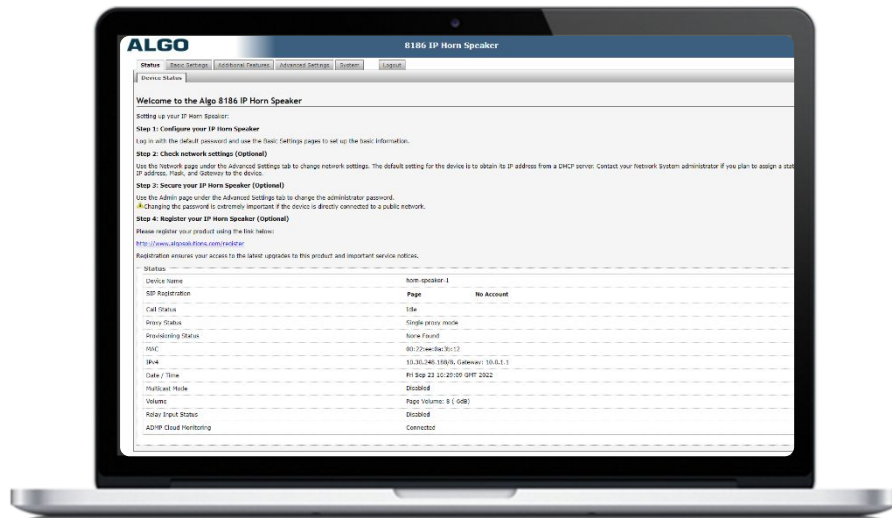

- Centralized device management solution, shows status of all devices in one view
- Deployed onto local network and can access all devices on that specific network

DEDICATED DEVICE MANAGER ADMP – Cloud-Based Solution

- Centralized device management solution, shows status of all devices in one view
- Cloud-based, can view and manage devices across multiple networks, from anywhere

- All Algo IP Endpoints have an intuitive web interface, accessible via the device IP Address
- Common layout across all products
 - General Status
 - Basic & Advanced Features
 - Security and Network settings
- All configuration settings accessible from web interface
- Ability to download/upload pre-saved configuration files to deploy common configuration across multiple devices

8300 Controller – On Premise Device Management

Algo 8300 Controller

Status

Status and Login Dashboard

One or more devices have been disconnected.

The Dashboard's "Managed Devices" list tracks the online/offline status of preconfigured devices. To configure the Managed Devices list, log in and go to "Dashboard > Devices" tab.
*Note: SNMP must be enabled to monitor devices correctly. Enable SNMP in "Advanced Settings > Admin" tab of the target device.

Search devices...
 All Online Offline

IP	MAC	Product	FW	Name	Status
192.168.2.191	00:22:ee:12:00:8f	8180G2		sipalterter	Error Unreachable
192.168.2.211	00:22:ee:03:41:1f	8028		doorphone	Warning SNMP Disabled
192.168.2.203	00:22:ee:1e:00:12	8190S		sipspkrclk	Warning SNMP Disabled
192.168.2.206	00:22:ee:07:2f:d0	8188	1.7.6	sipcelling	Online
192.168.2.207	00:22:ee:0b:01:15	8039	2.0.1	videodoorphone	Online
192.168.2.205	00:22:ee:0f:00:df	8138	4.4	sipstrobe	Online
192.168.2.189	00:22:ee:09:29:48	8301	1.7.6	master-1	Online

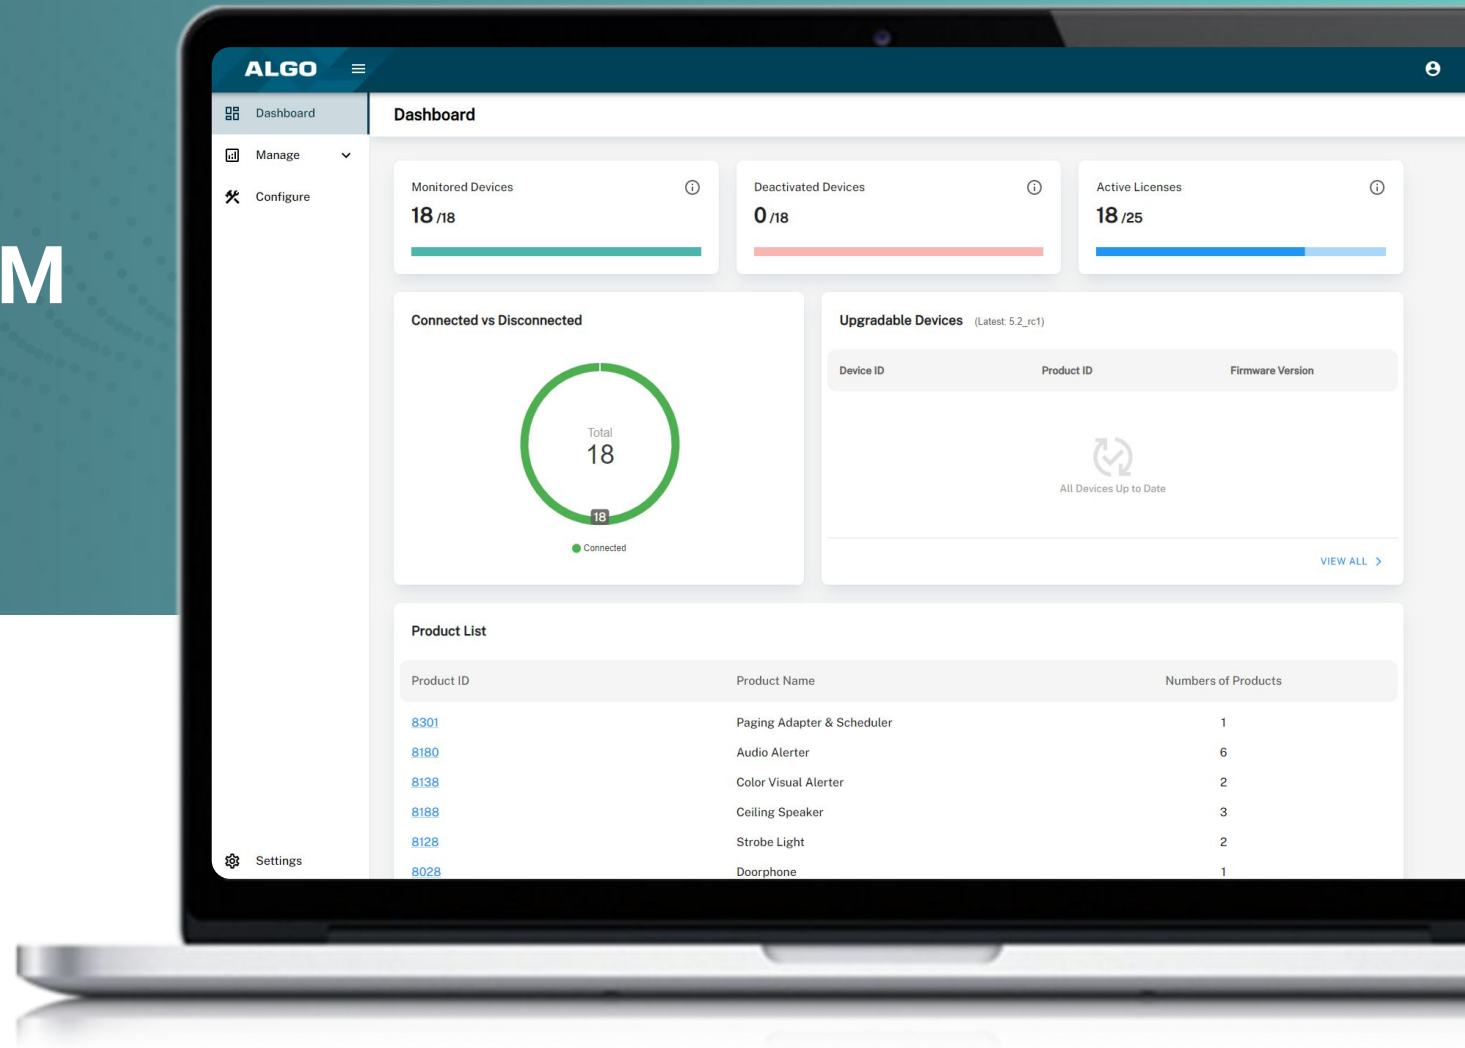

- Monitoring Algo devices for in service
- Notification via email, SIP call or audible alarm for “offline” conditions
- Single pane view of all Algo devices connected to subnet
- One-time hardware purchase, no ongoing costs
